Statistics presented based on figures generated by RMLS covering areas 141-156 in the greater Portland Metro Area

**Definition of Terms:**

- \* DOM: counts the number of days between when a home is listed and when it sells
- <sup>^</sup> percent of new listings that went pending within 7 days of being listed
- <sup>†</sup> inventory: measures how many homes are on the market during a given time frame. It is measured in months because it represents how long it would take for every home currently on the market to sell.
- <sup>‡</sup> distressed sales: bank-owned homes or short sales
- <sup>◇</sup> affordability: as what percent of households can spend 30% or less of their income on a median-priced home based on current interest rates, and putting 20% down
